SAP: SAP BTP, SAP CAP, BTP Services .

Testing and Collaboration: Git, Jira, Jest, E2E Testing, Unit Testing, Integration Testing .

DevOps and Tools: Docker, AWS, Terraform, Kafka, CICD .   Principles: OOP, SOLID, Patterns, Clean Code .

AI & LLMs: Prompt Engineering (OpenAI, Gemini), LLM Integration, Embedding-based RAG

💼 WORK EXPERIENCE

Software Engineer
LeverX

10/2024 - Present   *Warsaw, Poland*
Global SAP integrator providing consulting, implementation, and custom software development services.
Achievements/Tasks

- Developed a scalable media application using SAP CAP and Node.js, improving performance and reliability.
- Integrated AWS S3 for file streaming and AWS KMS for encryption, enhancing data security.
- Built microservices for secure user action logging via Destination Service, increasing system transparency.
- Optimized overall security and system performance, reducing latency and improving stability.
- **Technologies**: Node.js, SAP BTP, SAP CAP, BTP Services, AWS S3, AWS KMS, Microservices, AI.

Full Stack Developer (Middle)
Right&Above

11/2022 - 10/2024   *Warsaw, Poland*
International IT company delivering software development, cloud solutions, and IT consulting.
Achievements/Tasks

- Improved frontend performance and user experience on real estate projects using Angular.
- Expanded into a full stack role in cryptocurrency projects, developing frontend, backend, and blockchain (Solidity) features.
- Optimized smart contracts, reducing gas fees and improving deployment efficiency.
- Led frontend development for multi-tenant platforms, mentoring junior developers and improving team delivery speed.
- **Technologies**: Node.js, NestJS, Express.js, WebSocket, Strapi.js, Microservices, Web3, Wagmi.js, Hardhat, Smart Contracts, React, Angular, AngularJS, Next.js, RxJS, NgRx, Redux, HTML, CSS, Tailwind CSS, Material-UI

WORK EXPERIENCE

Frontend Developer
Giraffe Studio

12/2021 - 11/2022   *Kraków, Poland*
Polish software studio building mobile and web applications using modern technologies.
Achievements/Tasks

- Developed booking and payment systems for beauty salons using Angular, improving booking speed and payment flow.
- Designed responsive interfaces, increasing user satisfaction and retention in beauty and retail applications.
- Integrated external APIs, enabling seamless online scheduling and real-time updates.
- Delivered multiple projects using Angular, React, and NativeScript, adapting to diverse client needs and reducing delivery time.
- **Technologies**: Angular, React, NativeScript, Redux, RxJS, NgRx, HTML, CSS, Tailwind CSS.

Frontend Developer
TerraSoft Software

12/2020 - 12/2021   *Remote*
A software development company providing CRM solutions, specializing in customer relationship management systems.
Achievements/Tasks

- Developed booking and payment systems using React.
- Designed responsive user interfaces for beauty and retail businesses.
- Integrated third-party APIs for seamless scheduling and transactions.
- **Technologies**: React, Redux, HTML, CSS, Material-UI, REST APIs.
